

What our farmers have to say . . .

"The friendly and approachable management team gave us confidence in their business model and its ability to do well alongside

Fonterra, returning a competitive milkprice to its suppliers. One of the main incentives for change for us was the ability to redeem shares which played a big part in our succession planning and effectively allowed us to transfer that capital into land which suited our situation".

Cherry and Pieter van Miltenberg – Opio, Southland

"The main reason for joining was that I felt the return on shares was poor and the shares were over priced. I also had no control over the use of that capital. By going contract milk supply it allows me to release capital and have control of the use of that capital in my own farming operation, maximising return on capital".

Rod and Denise McKenzie – Wyndham

"Supplying OCC created new opportunities for us."

Sue and Dave Forsythe – Te Awamutu

"Personalised rewards for effort through premiums. Makes share money work for us."

Joe and Julie Webby – Morrinsville

"I've gone with them so I can have someone to talk to when I need to, and financially, to get a better return on my share capital by controlling it myself".

John and Robyn Clarke – Otautau

"We wanted to rationalise the risk with shares and have invested in another dairy farm from the capital".

Wayne and Angela Carpenter – Invercargill

"We joined OCC to take advantage of their seasonal payment system which compliments our 800 cow split calving herd!"

Tracey and Cam Holmes – Cambridge

"Open Country staff are as good as gold to deal with. The tankers have been slow on the track. OCC staff relate to you by your name and anything they can do for you is not a problem. The decision we made to change to OCC is one of the best decisions we have ever made."

Leo and Jane Van Marrewijk – Waikato
